

For Immediate Release

Johan van Splunter Named to Nanotron Board

Nanotron Continues to Grow in Loss Protection Markets

Berlin – May 12, 2011 – Nanotron Technologies Ltd. (“nanotron”), the leader in Loss Protection Solutions, today announces the appointment of Johan van Splunter as a non-executive member of the Board of Directors.

Dr. Jens N. Albers, CEO of nanotron commented: “We are proud to announce that Johan van Splunter joins our Board of Directors. His extensive international experience at the highest levels of industrial management and oversight will provide us invaluable expertise and knowledge. Johan joins our Board of Directors right at the moment when Nanotron forges industry partnerships in consumer markets for our focus market of child safety.”

Over the past 24 months Nanotron has been working with original equipment manufacturers (OEMs) in the consumer space on positioning Loss Protection Solutions for Child Safety. The ecosystem of development and manufacturing partners required to satisfy the growing demand for loss protection applications has been established. Nanotron now focuses on addressing the need of young families to protect their children while in public places.

Jens Albers added: “Mr. van Splunter was selected to serve as one of our directors because of his extensive executive management and leadership experience, strong financial, risk analysis, and corporate governance skills, and significant experience and familiarity with the consumer industry.”

Felix von Schubert, member of the Supervisory Board and partner of zouk ventures, the lead investor in nanotron, remarked: “The Board is excited to welcome Mr. van Splunter as a Director of the company. He brings a wealth of experience and contacts that we are sure will contribute to nanotron’s continuing growth and success.”

Johan van Splunter said: “It is a unique opportunity for me to help Nanotron facilitate industry alliances that form the basis for these new markets. There is definitely demand for the solution – and it is significant.”

“The company has enormous untapped potential, I believe.” he added.

Mr. van Splunter was Member of the Group Management Committee of Philips Royal Electronics until 2006. He served as a Member of the Board of Management at Grundig AG in Germany, as Chairman and Chief Executive Officer of Philips South Africa, President and Chairman of Philips Electronics Asia Pacific, and as President and Chief Executive Officer of Philips Domestic Appliance and Personal Care.

He has a degree in business economics from the University of Amsterdam.

Nanotron’s Board now comprises five directors, including Johan van Splunter, Felix von Schubert, Bertram Köhler, Tonio Barlage, and Jens Albers.

About Nanotron Technologies

Loss Protection Solutions are used today to protect people, animals and valuable assets. Reliable Chirp technology from nanotron with its small battery powered radio nodes simply monitors the objects to be protected. An alarm is generated if the distance between them or their position violates a set of user-defined rules creating a Virtual Safety Zone. - Nanotron sells Chirp Chips, Chirp Modules and the related Software suitable for indoor and outdoor environments globally. Its new family of system elements for Real Time Location Systems (RTLS) takes Loss Protection to the next level by adding full location awareness in three dimensions. The company is head-quartered in Berlin, Germany.
